# TO THE FARMER!

## KEEP ON BUYING PRICES ARE DOWN

You cannot sell your crop unless men are working.

Men cannot work unless you buy the things they produce.

If you buy Clothing, Yard Goods, Underwear, Hats, Stockings, Shoes, Farm Implements and Household Articles, you give employment to factory workers who produce these things, railroad workers who transport them, clerks and stock keepers in wholesale and retail stores, miners who supply coal to run the plants and railroads.

This all produces money, which goes into our banks and in return your banker is placed in a position to aid you in financing your affairs.

It all works out for better prices for all farm and ranch products and countless others.

All these workers are users of farm produce.

They cannot eat bread made of your wheat, wear clothing made of your wool, cannot consume your corn, oats, etc., unless they are working.

They cannot work unless you keep buying. If you stop buying---business stops---your business and their business.

You can't sell Crops to the "bread line" man!

This is the greatest country on earth and will continue to do business. But you can give it a bad bump unless you keep buying the things you need.

### Keep On Buying Carefully—But—Now.
